Rogue Wave Product Lifecycle

Rogue Wave gives you consistent and predictable guidelines for the availability of support throughout the life of a product. The full Rogue Wave Maintenance and Support Policy, is available here.

Term	Description
GA	This is the date on which a product version is first made available for sale and general distribution.
EOM	The date on which a product version is no longer eligible for any Maintenance Services (maintenance release).
EOS	The date on which product version is no longer available for sale. At EOS, the product version files are no longer available for download.
EOL	The date on which all maintenance and all support for a product version is terminated.

Product specific information:

- Akana - API Platform
- Akana - Lifecycle Manager
- Akana - Sola
- CodeDynamics
- DB Link
- Elixir
- HostAccess
- HydraExpress
- IMSL C Numerical Library
- IMSL C#/.Net Numerical Library
- IMSL Fortran Numerical Library
- IMSL Java Numerical Library (JMSL)
- JViews
- JRebel
- XRebel
- QRebel
- Klocwork
- PV-WAVE
- Server
- SourcePro
- Stingray
- TotalView
- Views for C++
- Zend Server

Rogue Wave will not release security fixes after the EOM Date. For more information about the Zend Server end of security fixes, end of maintenance fixes, and long-term support policy, click here.

For Zend, between EOM and End of Support, support is limited. Any request that would require an escalation to engineering can no longer be honored, and support will be limited to best-effort mitigations.

Zend products remain available to download after the End of Support date, and Zend will continue to provide licenses. No other support is available at that point, regardless of SLA.
