

How do I reset my Zend Server for IBM i admin password?

Issue

The admin password has been forgotten or is not known, not able to log into the Zend Server for IBM i User Interface (UI). How do I reset my admin password?

Environment

Zend Server for IBM i version 6 or higher

Resolution

Sign on as QSECOFR or a user with *SECOFR authorities and from the 5250 command line:

For Zend Server version 2020.x, 2021.x

```
go zendphp74/zsconfig
```

Use option "1. Change password for Web Administration Console". Enter the new password, then press enter to save it.

For Zend Server version 9.x, Zend Server 2018.x, 2019.x

```
go zendphp7/zsconfig
```

Use option "1. Change password for Web Administration Console". Enter the new password, then press enter to save it.

For Zend Server version 6-8.5

```
go zendsvr6/zsconfig
```

Use option "1. Change password for Web Administration Console". Enter the new password, then press enter to save it.
